Nicaragua. LEGAL OPINION RESPECTING MR. MARCOLETA'S ASSENTIONS THAT THE CHARTER OF THE TRANSI COMPANY WAS FORFEITED NEW YORK, NOV. 24, 1852.

OMPANY WAS FORFEITED

New York, Nov. 24, 1852.

To THE PRESIDENT AND DIRECTORS OF THE ACCESSORY
TRANSPIC CONTROL OF SIGNARDUR.

Gentleman—In assesse to your communication of the
Med instant, the undersigned beg leave to say that they
have examined the Charter and act of Incorporation of
the American Atlantic and Pacific Ship Canal Company,
togsther with the charter granted by the State of
Nicaragua to the Accessory Pransit Company, and also
the decree of the Director of the State of Nicaragua,
dated the 27th of March 1852 referred to by Mr. Marcoleta in his correspondence with the Transit Company,
and premising that Mr. Marcoleta has not exhibited to
the company any special instructions or authority from
his government other than the decree before referred to,
we are of opinion in answer to your first question, that
Mr. Marcoleta is not citothed with pawers, by virtue of
his office, or vested with competent authority, by virtue
of raid decree, is appoint commissioners under the
thirty third section of the charter for adjusting disputes
or controversies between the company and the government of Nicaragua

And we are further of opinion, in answer to your
second question, that the said company has not forfelled
its charter by a refusal to appoint commissioners on the
requisition of Mr. Marcoleta.

In answer to the third question, we think that the correspondence, as published by Mr. Marcoleta, between
himself and the company dees not show a refusal on the
part of the latter to appoint commissioners on the
part of the charter; on the sontrary, it is quite manifest
that the company merely require to be satisfied as to the
part of the swerners. This was entirely proper—the
authority of the beard of commissioners ought to be perfact in respect to the povernment as well as in respect to
the company. He such due and notherly did not exist, and
the award should be in Pany Texpect understanced our
typinen upon a question of the termitody proper—the
authority of the beard of commissioners ought to be perfact in r

the functions of Mr. Marcheta, as the representative of Nicaragua necessarily coned.

The State which he had utilitien represented became merged, so far as its foreign affairs were conserred, in the new confederation and has government of the "National Representation." Talk is familiar law, and instances of a like kind have not unfrequently occurred in practice. The union between Scotland and England is one, and that between Texas and the United States is another. Nicaragua, by her own consent became incorporated in a union with Honduras and Sal Satvador, although each of those States may have preserved its own laws, and its own executive, legislative and judicial departments, for the government of its own domestic concursa, yet it seems quite clear that the sovereignty of each so far as foreign nations are concerned, became merged by the Act of Union, and for all practical purposes completely extinguished. We therefore conclude that Niagara has not at this time any national representative in this country.

CHAS, OCONOR,
F. B. CUPFING.
J. PRES JOFT HALL.

FINANCIAL AND COMMERCIAL.

MONEY MARKET.

NEW YORK, NOV. 28-6 P. M. During the past week the stock market has been unugually active, and prices at the close yesterday show conmiderable variation from those current at the close of the week previous. About the usual flustuations have been experienced, and the street brokers have had the market all to themselves. Outsiders appear to take very little in terest in the speculative movements of the day. The transactions lately have been principally for each. With an abundant supply of money, it is surprising the upward movement is not more active and better sustained. The only cause for this is the situation of the leading funcies. They are held in large lots. Were they more generally distributed the market would be in a more healthy state, and the movement, one way or the other, would be of a more decided character.

According to the Custom House returns, the exports tion of specie from this port last week was quite limited.

BHIPMENT	s or SPE	CIE FROM	THE	PORT	or 1	NEW :	fonk.
Brig Grans Steamship 60.	Paoifie, do.	Liverpool	Am	gold. do.		*	2,600 610

Previously reported 23,741,950 Total for 1852..... \$28,777,560 The agents of the Pacific report shipments of specie by

Bustom House returns are prebably correct. The revenue of the State of Rhode Island, during the year ending October 1, 1852, amounted to \$58,765; expenditures during the same period \$60,747; deficit in

the steamer to be two hundred thousand dollars. The

revenue, \$1 962
It is the impression in Chicago, that the proposition to smend the constitution of Illinois, so as to make the sum now divided upon the principal of the State debt upon the first day of every January applicable to the purchase of the State bonds at their market value, and which was submitted to the people at the recent election, has been lost, as it required a vote equal to a majority of all the votes cast for Congressmen. It is not certain yet that such is the result; if so there will be great efforts made by the Wall street financiers to come in for a portion of the proceeds of the tax, to be distributed pro rate on the 1st of January next.

The suncted statement exhibits the quantity and articles, other than dry goods, importe into this port during the week ending and including Fri

THE SECOND SECOND	200000		ALCOHOL: N

Coffee, \$51,152; jewelry, \$15,800; skins, un-Silo,645; brandy \$24.564; copper, sheeting, \$25,510; ron, \$32,648; cutiery, \$18,575; lead, \$46.407; tim, \$20,109; watches \$41,421. The value of imports last week was smaller than usual, while the returns of export. will show an increase in value for the rest of the year. The exports will compare more closely with the imports, which will tend materially to reduce the aggregate balance on the foreign trade of the country at large. The imports into this port are a criterion of those of the whole country, while the exports from this port are but a moderate per cent of the total It is estimated that nearly seventy five per cent of the aggregate importations into the United States are entered at this port, while less than one half of the aggregate exportation of merchandise, is cleared from this port. Within the past two years the shipments of specie have been unusually large, and they have been principally from this port. This has given New York a greater prominence in this branch of our export trade than usual. The following table shows the quantity of some of the

principal articles of produce left at tide water from the commencement of navigation to 22d November, inclusiveduring the years 1850, 213 days; 1851, 252 days; 1852,

215 days :-

Total

This is equal to nearly eight per cent on the capita (\$150,000, at eight per cent, \$12,000,) and when it is con sidered that such large carnings were accumulated from about five months business, those interested must be wel pleased with the investment. On the 20th of November the company had in bank \$10,823 16, and it is possible that a dividend of five per cent will be paid on the lat of January, 1853. This will leave a surplus on hand, subject to contingencies.

The annexed statement gives the name, date of organ zation location, and capital, of insurance companies in this State, established under the General Insurance act of

the State of New York.

We subjoin the following opinion of the Comptroller of We subject the following optation of the Comptreller of the State of New York.—

It is not easy to determine the degree of confidence as insurance company may rightfully claim. The Comptrol icr's criticate or which considerable nee is so nothings made in gaining the confidence of inquirects and the public, amounts to nothing more than a desireation that, appairently, the company has commonwed operations according to law.

These remarks are by no means made to excite suspicion, but to prevent undue importance being attached to

the filing of the charter in the office of the Socretary of State, the suderaed opinion of the Attorney General, and the certificate of the Comptroller—all relating ra-ther to the forms of proceeding than to the substantial power and strength of the company. That our in-surance companies are generally conducted with upright-ness and prudence, there is much russon to believe.

The annexed statement exhibits the quantity of certain articles which have arrived and cleared at Cleveland Ohio, during the years ending Nov. 14, 18:1 and 1852;-

In the comparison with 1851, it will be seen t	he increase

is pretty large of most articles. Cora has fallen off t the amount of 136,162 bushels, but wheat has increased 390,835 bushels, and flour 114,745 bbls., which makes the total increase of wheat equal to 961,589 bushels. The increase of butter is more than 300,000 pounds, bacon 300,900 pounds, and choose about 325,000 pounds. The export of pork shows a small increase; but that is no criterion to judge of the amount raised, as an immense businese has been done in the way of shipping live hogs. It is estimated that the increase of shipments of live hogs East has been three-fold greater this year than last,

That part of the Susquehanns Railroad extending from Bridgeport on the west bank of the Susquehanna, opposite Harrisburg, up to Sunbury, a distance of fifty-four miles, has been let to contractors on very favorable terms. The route along which the road will pass presents a continuous grade of the easiest and most favorable character In the first eight miles on its way up the river valley the road will connect with the Pennsylvania Railroad; and at successive intervals of a few miles each connections will also be made with the Dauphin, Lyken's Valley, Trevorton and Shamokin Railroads-each of which penetrates its appropriate coal region. Though the active portion of the fall season is over

still a large November business is doing in dry goods. The wholesale houses are not very busy, but second class dealers and jobbers are tolerably well employed. All parties have moderate stocks on hand, and succeed in seiling them at full prices, excepting when they are disposed of by auction, when owners are obliged to make an casional concession in order to get rid of old shopkeepers. Very he of these, however, remain in private stores, and hence their trivial depreciation will not materially deteriorate the net profits of the fall trade, which are generally reported to have far exceeded those of the same period last year. This is owing more to the sound basis upon which the transactions of the last three months have been conducted, than to any positive rise in the value of goods, For while heavy sales of all fabrics were effected at very high and buoyant rates, comparatively few debts were incurred, and even these few were camelled, sometimes before, but always on the ma-turity of notes. This, in our opinion, has been the chief cause of the almost unprecedented success of the trade during the season now drawing to a close. Consider able quantities of spring commodities are coming forwards at present, and a few operations are reportedia baving occurred in such during the past week; but, as we are advised, neither the imports nor the sales of next season's goods will be extensive until near the end of mext month, and the beginning of 1853. Heavy brown sheetings and shirtings are in moderate, and light do. and do. are in spirited demand, at full and firm prices. They are all now in limited supply, and display an advancing tendency. After the large consumption of bleached goods which we have heretofore noted, we have yet to report a steady business in shootings and shirtings, at unchanged figures. There is a small amount, though a perfect variety, remaining on hand. A partial scarcity of drills exists. The demand for those articles is good and they are held at 8c. a 81/c for browns, 81/c. a 81/c. for bleached, and 950, for blues. The Osuaburgh trade is not active, yet a fair quantity of such fabrics a daily sold at uniform prices. The enhanced views of owners of denims are said to obstruct transactions. All desirable kinds are quoted at 90. The market is poorly supplied with stripes, which are in request at former rates. Ticks, also, are rare and firm, as before quoted. A brisk business continues to be transacted in Canton flannels, stocks of which are limited, and prices of which are well maintained. A moderate inquiry prevails for ginghams, at unaltered figures. There is very little estrable makes of which are scarce. doing in Linseys, desirable makes of which are scarce, and held at 17 a 18c. Jeans are plenty and dull. Tweeds seem in good demand and are unchanged. Dark muslin de laines are freely offered and slowly bought at depressed prices? other sorts are in some request at 17 a 19c. Printing cloths are in light supply and fair demand, at advancing raice. Holders ask from 3½c. for 40 by 44. to 5½c for 68 by 72. There is a moderate inquiry for prints, and they sustain their value. The surplus stocks are insignificant. Cichts are sparingly dealt in only by the near by trade at unaltered quotations; the stock is not excessive. Desirable styles of cascimeres find ready buyers at full price; owners of untashionable makes are disposing of them at easier rates. Satinets are recarce and quiet, at previous rates. Blankets are in poor supply and sotive request; prices appear firm and buoyant. There is not a great deal doing in fiannels, yet they retain their firmness. Shawis are generally actively sought after, and taken as fast as offered, at full quotations. There is a gradually increasing quiercence in the soveral branches of the foreign dry goods connected with the reason, which is now rapidly approaching its end. Importers have almost disposed of their stocks, and are at present chiefly occupied in preparing for the spring business. The jobbers are swittly reducing their supplies, and will have pretty clear stores by the time that the spring business usually becomes active. Anyet the importations have been moderate; but the end of next month will bring an increased smount of manufactures forward. Some of these will come out at enhanced rates, and consequently occasion an slevation of prices in this market, which we are inclined to think, will in view of the fact that all subsequent arrivals must be more expensive, be permanently from, displaying a slight upward tenor; they are generally moderately inquired for. Some kinds of English cloths attract more attention but they are not purchased with any great freedom. French goods held at 17 a 18c. Jeans are plenty and dull. Tweeds seem in good demand and are unchanged. Dark musica

CITY TRADE REPORT.

SATURDAY NOV. 27-6 P.M.

Breadstupys.—Flour was more shundant and chosper.
The demind was moderate for consumption, and active for investment. The sales reached 18,900 barrels. Sour and superfine No. 2, at \$4 50 a \$4 75; ordinary to choice State. \$5 a \$5 26, mixed to fancy Western and common to good Ohio. at \$5 183; at \$5 433; with fancy densess and Ohio. and ordinary to favorite Southern, at \$6 37; a \$5 623%. We heard that 130 barrels, 5tate and Josey meal were taken at \$3 60 and \$2 75 per barrel. Wheat continued in slack request at drooping rates. \$2,500 bushels Caradian white in bond, brought \$108 a \$1 14; and \$60 interior Genesee do. \$1 18. Kye was quiet, and beld at \$98 a \$1 per bushel. Some 7,000 bushels barley changed hands at 700. a 750 State and Western oats were rather landinate at \$60, a \$4; per bushel. Corn had a declining tendency. There were 25,600 bushels disposed of at 750 a 50. for new Southern, and 310, a \$80, for mixed Western.

Cornes —The sales were 1,000 bules to 452, at \$150, and \$100 and Corres -The sales were 1.000 bales to-day, at the qu
